

# KEYSTONE BRIDGE REHAB PROJECT

## PRESERVING OUR HISTORY

Helpful hints to negotiate the detour during the Keystone Bridge Rehab Project.

The main concern is determining if you need the west or east side of the river. Once on High Street, regardless of which "exit" is used, anywhere on the east side of the river is accessible.

On Hwy 13, heading north from Strawberry Point, the first "exit" is labeled either "Hwy 56" or "Elkader/West Union". (It is by the County's Turkey River Park)

Use that exit for:

- Downtown business district
- Hospital
- Medical Associates
- School
- AEA
- Nursing Home/Care Center
- Opera House
- City Hall
- Library
- Founders' Park

- High Street NE (NORTHeast)
- To Postville
  - To Gunder Road and Gunder
  - Daycare Center
  - Businesses along High Street NE and Gunder Road
  - Industrial Park

- Bridge Street "exit"
- Courthouse
  - Businesses on Bridge Street or High Street NE (NORTHeast)
  - Clayton County Development Office
  - County garbage drop-off at Secondary Roads

- High Street SE (SOUTHeast) (you can see the little league field from the highway)
- City Park
  - Campground
  - Deer Run campground
  - Innovative Ag Services a.k.a The Co-op
  - Swimming pool
  - Museums

**WEST side**

**EAST side**
